Education

SR Institute of Management & Technology — Lucknow, UP, India
Computer Science Engineering Bachelor's — June 2018 - July 2022
Percentage: 89%

Experience

MLL Mobility Pvt Ltd | Specialist, Mobile Application — Gurugram | Sept 2025 - Present

- Own the end-to-end lifecycle of **Alyte** production enterprise mobility apps used daily by hundreds of user and field operations staff across **8** sites.
- Cut app cold-start time from **5s** to **2.5s** and raised crash-free sessions to **85%** by refactoring the Core Data stack and migrating **Booking Module** to MVVM.
- Ship features on a *bi-weekly* release cycle via Diawi and App Store Connect, coordinating with product, backend, and operations stakeholders.
- Reduced offline sync failures by **75%** by implementing the Synchronised Data syncing.

Codeflies Technologies | iOS Developer (Contract) — Noida, India | June 2025 - August 2025

- Implemented **In-App Purchase** and *Subscription*, enabling monetization features.
- Handled complete **App Store deployment lifecycle**, ensuring compliance with Apple guidelines.

Singsys Pvt Ltd | Software Engineer, Mobile — Lucknow, UP, India | May 2024 - May 2025

- Architected and launched a two-app ride-hailing ecosystem (rider + driver) serving *400-600* daily rides in Singapore, with live GPS tracking, route optimization, and integrated payments.
- Led a team of **5 developers across 4 client projects**, owning sprint planning, code review, and on-time delivery.
- Shipped **4 production apps** across *mobility, e-commerce, and services*, each released to the App Store with a 3+ star rating.
- Implemented **StoreKit in-app purchases** and **subscription flows**, and owned the full App Store submission and review process through to approval.

JamTech Technologies | iOS Developer (Contract) — Lucknow, UP, India | Dec 2023 - April 2024

- Built a job-discovery platform featuring video rsums and a swipe-based matching UI, reaching **500+ downloads** within *3 months* of launch.
- Integrated in-app purchases and engagement features that lifted *App Monetization* by 65%.

Synclovis System Pvt Ltd | Software Engineer — Bengaluru, India | Nov 2022 - Nov 2023

- Built and maintained iOS features in SwiftUI and UIKit across e-commerce and ed-tech products serving **100k+ users** with a **3.7 rating**.
- Delivered *6 production releases*, contributing to **Gift Card** and **E-wallet** feature enhancement.
